

2011 Directory of Architecture Firms

Washington Chapter AIA

AIA Northern Virginia

AIA Potomac Valley

Tragedy counts many victims. Including the unfortunate architect who ignores acoustical engineering.

Faulkner's classic Shakespeare reference serves up an apt warning for architects: Ignore the twin evils of noise and vibration and risk tragic consequences.

The last thing you want to hear is bad news about acoustical design – or the lack thereof. From mechanical hum to environmental noise, the pitfalls are lurking. Whether you need to ensure vibration-free lab settings or

provide workspace speech privacy, Phoenix Noise & Vibration can help. With staff board-certified in noise control engineering, we offer solutions designed on the front end versus trouble-shooting on the back end. Or worse. (You sure won't like the sound of *that*.)

Make sure your next project has a classic ending. With acoustical engineering by Phoenix, it's bound to resonate success.

Acoustical Engineering Solutions.

2011 Directory of Architecture Firms

PURPOSE OF THE DIRECTORY

Welcome to the 2010-11 Washington Metropolitan Directory of Architecture & Design Firms. The purpose of this directory is to serve as a reference for prospective clients and others seeking information about architecture firms and suppliers in the Washington area.

ACCURACY AND COMPLETENESS

The Washington AIA architecture firm data was provided by the firms themselves and extrapolated from the AIA|DC online firm database. The AIA Northern Virginia and AIA Potomac Valley firm data was derived from computerized membership databases. All data was believed to be correct and current at the time of printing. If you have questions about this publication or would like additional information, please contact the Washington Chapter AIA, AIA Northern Virginia or AIA Potomac Valley at the telephone numbers below.

CDQR

Construction Document Quality Review (CDQR) is an independent review of all construction documents by peer architects and engineers to insure that drawings and specifications are complete and consistent. Dalton Advisory Group has over 30 years of experience in the architecture, engineering and construction disciplines.

In today's litigious environment of contractor change orders and errors and omissions, this review of all contract documents will flag inconsistencies and errors in the documents before they are issued for bid and it is too late to correct. Try us out, first review is free.

Dalton Advisory Group, LLC
3220 N Street, NW
Washington, DC 20007

Your practice is at risk every day. Your reputation is always on the line. That's why you need a professional liability risk management program specifically designed for A/E's and customized to protect your practice.

That's where our agency comes in. We are dedicated advisors providing solution-oriented service that includes risk management guidance, insurance coverage placement, training, and more. You can benefit from our experience and local expertise with the unparalleled resources from XL Insurance. Together, we can help you make good decisions and improve your firm's risk management practices:

Expert claims handling by professional liability specialists who understand the importance of preserving your reputation as well as your assets.

Specialty underwriting to provide you with customized insurance solutions.

Industry leading education developed by XL Insurance and backed by 30 years of front-line claims experience to positively impact behavior.

And there's peace of mind knowing you have a trusted partner who anticipates your needs by keeping up with the A/E industry. We understand the intricacies of protecting your practice, assets and reputation. You can be confident in our knowledge.

For free risk management tools, visit www.xldp.com/tools.

"XL Insurance" is the global brand used by XL Group plc's (NYSE: XL) insurance companies. Coverages underwritten by Greenwich Insurance Company, Indian Harbor Insurance Company, and XL Specialty Insurance Company are subject to underwriting requirements. Coverages not available in all jurisdictions.

CLASSIC DESIGN....
21ST CENTURY PERFORMANCE

American Brewery
East Baltimore, MD

Whether your architectural vision finds expression in a residential or commercial construction project, or in historic rehabilitation, Marvin windows and doors will highlight and preserve the essential characteristics of your unique project. We offer special sizes, casing and divided lite patterns plus a wide range of custom capabilities to meet your specifications. Not only will our windows and doors complement the aesthetic beauty of your building, they'll deliver high performance and energy savings benefits to meet your goals for environmental responsibility. Choose the quality and craftsmanship of Marvin Windows and Doors for your next renovation, new construction or historic restoration project.

Discover where timeless design and tradition meet modern innovations and solutions. Call us at 1-888-553-9988.

Including natural gas in our project was a very smart decision.

Plan Early. Sell Faster with Natural Gas.

If you don't incorporate natural gas as a primary energy source into your plans, you're missing a big opportunity. Savvy builders know that their clients prefer natural gas because of the comfort, convenience and environmental benefits it affords.

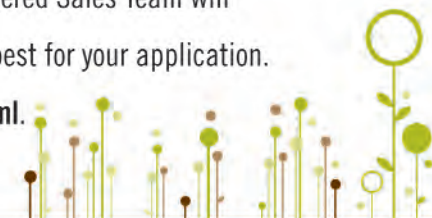

It's easier than ever to include natural gas.

- **Attractive design alternatives** are available through the use of the industry's latest meters. They're smaller, allowing for their placement in aesthetically pleasing locations.
- **Innovative piping options** such as 2 psi delivery systems, and flexible copper and corrugated stainless steel piping help to reduce first costs.
- **Distributed Meter Rooms (DMR)** provide the flexibility for individual unit meters to be installed in vertically stacked central gas meter rooms on each floor in a high rise multifamily building.

Call Washington Gas for a free consultation.

Contact the professionals at Washington Gas in the initial stages of your project. Our Engineered Sales Team will help you with design issues and work with you to determine which natural gas systems are best for your application.

Call Jennifer Eugene at **703-750-4844** or visit washingtongasliving.com/For_businesses.xml.
